

"Refreshing" is the best way to describe KLOVE. I recently moved to San Antonio and truly enjoy hearing upbeat, positive music and messages that do not offend or shock in order to get listeners. KLOVE is providing a safe alternative for families who want to relax without continuously monitoring what their children are hearing. It would be a significant disservice to the local community if KLOVE were displaced by an LPFM broadcaster with different programming. Please do not allow LPFM stations to expand and take over current translator services. Keep KLOVE where it is. The entire community will benefit from having KLOVE available locally.
